

NOBILIS

Natural elegance through authenticity.
The translucent, slightly pigmented
surface highlights the fibre cement texture
in all its natural beauty and elegance.

NOBILIS

Nobilis is a grey panel with a translucent, lightly pigmented surface that highlights the fibre cement texture in all its natural beauty and elegance. The colour family combines 13 shades of brown, blue, green and grey, both warmer and cooler hints of grey. The sophisticated shades of Nobilis create an effortless aesthetic and elegant lightness.

As a naturally dried and lightly pigmented fibre cement panel, Nobilis is restrained and precisely because of this becomes an aesthetic eye-catcher. Whether deliberate combinations of soft grey tones or expressiveness through unity – Nobilis lends simple elegance to facades and interiors.

All shades of the Nobilis colour family are also available with a highly resistant coating that offers greater scratch resistance and protection against heavy soiling and graffiti.
